

Our beloved Periyemma / Mamee was another mother to us. She was a woman with a big heart, always caring for everyone around her and ensuring that they felt comfortable and safe.

She played an incredibly important role in our lives. During our difficult times in Sri Lanka, without her support, we would not have been able to come to Singapore to pursue our higher education.

Even though we were an additional responsibility to her, she welcomed us into her home wholeheartedly. She cooked for us, ensured our comfort, and provided us with shelter and our daily necessities, for which we are always grateful.

Even after we had built families of our own, she never forgot us. She continued to treat us as part of her family.

She always made the effort to attend our family events. Despite of her health condition, she came all the way to Sri Lanka to be there with us during our marriage ceremony.

Her kindness, sacrifices, and unconditional love will always remain in our hearts.
